RE. SITE APPLICATION PLAN CONSULTATION.

We would like to submit our opposition to the proposed re-designation of the WEEETWOOD MANOR SITE HG 2-48 (3457) to allow the building of houses.

It is at the moment a 'green site' and as such is essential to the character of the surrounding area.

It is a wooded area and is the habitat for numerous plants and animals. In the event of building being allowed many trees would have to be removed.

The site lacks access having no frontage with a public highway and would possibly need engineering work to safeguard water courses.

Any house building would increase the density of the traffic in the area.
