10<sup>th</sup> November 2015

Dear Sirs

I write this letter because I feel that people should be able to express their views without having to resort to legal consultation to understand the requirements of your forms. I do not know if you have met all the criteria set out but I do feel the local consultation has been inadequate.

I am a Guiseley resident who was born in the town and who is appalled at what has happened to the area. The number of houses built in recent years with no provision of additional roads, schools, parking and leisure facilities is preposterous. Any further development would bring even more difficulties to the residents of this overburdened town. Putting more traffic lights on the A65 will not solve the problems.

Building has taken place on every inch of available brownfield sites. This plan to continue by building on green fields, in an area which has **no new employment**, is without value. Any new residents would be commuting using the already overcrowded roads and trains.

This was once a pleasant place to live. I regret that this is no longer the case. My appeal is that you do not make it any worse by passing these plans.

**My opposition to all the sites proposed for development of the Aireborough district is total. Do not think this is a "not in my back yard" letter, the back yard has already been built on. WE ARE FULL.**

Yours faithfully
