Dear Sirs  
Re Site H92-17 (1080 AND 3367A)  
Breamy Lane East, Bramhope LS16

I wish to record my non-approval and dissent at the amazing suggestion that 400 to 441 houses should be built at the about land covered by the site reference above.

The possibility of such development would result in even more road problems with the already very apparent volume of vehicles on the roads today. I am a car owner and realise that the volume of traffic on our roads is considerable. Our roads certainly in this area have some difficulty coping with existing traffic, some roads like Birches, Rowans, Cedars, etc and others in Bramhope never were

PDHO1751

LAMBERT 2

built for the car on these roads  
in 2015+. Therefore the thought of  
say 700-800 vehicles joining the  
existing road is ~~is~~ unusual! At the  
same time THE LACK OF STREET  
LIGHTING IS UTTERLY STUPID. That  
is the only issue that infuriates  
me ~~more~~ than the bloody immigrants!  
Now the HELL will Merkel come!!!

Pedestrian safety is another issue  
which again is a REAL problem.  
I have had the same problem the  
traffic flow is heavy at the usual  
peak periods and is hard for more  
elderly folk (there are plenty in  
this locality!) on the subject of peak  
traffic I often travel from Bramble  
to the Beeston area and return and  
how the working population put  
up with all the stop-start-stop  
starts every working day is not on.  
I won't mention the ----- speed camera.  
So the bare fact is the roads are  
really CHOKED NOW and a further 300+  
will really F--- it up. (That's  
often my first language these  
infuriating frustrating days)

3

CAMBERT

Local Health services will be under more pressure with an excessive number of patients being added to the existing people. My experience tells me that the service now available locally is not the standard it was. Oh no for some time the quality has gone and I tell others the NHS is in FREEFALL. Making appointments is not hardy and appears to be normal all over Leeds and more. Any large increase in population in this area would require the building of further health surgery!! I am also VERY AWARE THAT ALL HOSPITAL REFERRALS ARE AND OTHER MEDICAL NEEDS ARE MORE THAN DELAYED IN LOVELY BRITAIN!

I am saying no more, although I could mention the issues of schools and plans.

I have had the good luck to live all my life in North Leeds which is very satisfactory

Yours faithfully
