Dear Sirs,

Ref.HG2-50 Church Lane Paddock, Meanwood.

I strongly object to the proposed building of 25 houses on Church Lane Paddock site at Meanwood as mentioned in the Leeds Site Allocation Plan.

This green site is a treasure in the community, not only from an aesthetic point of view but also, it is the last undeveloped space in Meanwood. It should remain free of any kind of building.

Building on the site would adversely impact on the setting of the Church - a grade II listed building. The church having been built by the Beckett family , a name that is so well recognised in Leeds because of our Metropolitan University in Headingley, once their family home.

There are already housing applications for the Meanwood Working Men's Club site (54 units), West Garth (8 units), Carr Manor (15 units), Meanwood Manor (25 units). How much more can you pack into this community. All this puts huge pressure on current services, which are already over subscribed; schools, GP's and dentists. Traffic problems already exist in Meanwood.

Please consider my comments favourably.

Yours faithfully,

Christine Perrv
