Dear Sir,

I am writing to object to the plans to build houses on the greenfields of Horsforth and Rawdon. This plan contravenes the National Planning Policy framework (NPPF)

I am particularly concerned about sites HG2-41 → HG2-43 → HG2 12
HG3-2 → HG3-3 → HG3-4. This is all green belt land and the building on this land can not be justified before all Brownfield sites have been exhausted,

These fields are the green lungs of our communities and are extensively used for walking cycling, strawberry picking and educating our children about the countryside.

What Horsforth needs are starter homes and smaller houses for the older generation to downsize, not 4 + 5 bedroom houses that the developers want to build to make maximum profit.

Yours faithfully
