LEEDS LS18 5SW

Dear Sirs,

10th November 2015

Having seen various literature, I am responding to the Leeds Site Allocation Plans with regard to sites HGZ-4 to 43 (4240, 1010 & 5009) & HGZ-12 (4254) relating to the Horsforth/Rawdon area.

These all relate to Green Belt sites & contravene the NPPF plan. In addition, the already Nike missile AB5 simply cannot cope with any more traffic & the environmental damage & loss of wild life habitats should be taken into A/c as well.

I thought Leeds Council professed to be a "Green" city & here we are again - destroying valuable Green Belt land - the lungs of Leeds.

\* Should you wish to correspond, please write to me @ 44 Vesper Rd, LS5 3NX, as this will reach me much quicker.

Thank you, [redacted] [redacted] ✓
