

PDH01906

From: Barbara Scott & Nigel Wainman, Roselyne 13 The Birches, Bramhope, LS16 9DP,

These are our comments on the "Leeds Site Allocation Plan"

Our comments are on the following sites: HG2-15, HG2-16, HG2-17, 1181A, 1181B, 1204, 3434, 3367B

Site HG2-15 (3400). We object to this site being allocated for housing.

Site HG2-16(1002) We object to this site being allocated for housing.

Site HG2-17 (1080 & 3367A) We object to this site being allocated for housing. This is a very important greenspace site. The extra traffic would make an already busy road much worse. The doctor's surgery it is already difficult to get an appointment, it could not cope with so many more people.

For all 3 sites the plan is not sound.

The plan has not been **positively prepared** based on the Core Strategy. It does not take into account the inadequacies of the existing infrastructure eg road capacity, public transport, school capacity, health provision.

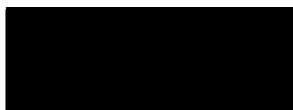

It is not **justified** because all the brownfield sites in Leeds should be used before even considering any greenfield sites.

It is not **effective** because of the lack of infrastructure and lack of scope to improve this. It is not **Consistent with national policy**, for example see Paras 158, 159 and 126 of NPPF.

The unallocated sites: Site references 1181A, 1181B, 1204, 3434, 3367B. We support these not being allocated.

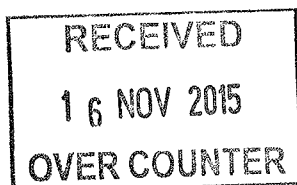

Barbara Scott
