### Save The Fields – You Tube

Dear Sir / Madam,

I am a 16 year old teenager, who was born in Leeds and lived in Rawdon since then. Please take time to look at my film, the link is shown above, which aims to show what we will lose with these crazy plans.

I hadn't been made aware of these proposals by any official body, (eg the council who claim they have engaged with the public – where and when?). I found out by hearing my parents talking about it. Is the council hiding the fact this is going on, they haven't bothered to engage the younger generation like me: libraries, schools, colleges, social media. Is this because they would be met with voices of opposition.

Yes we need housing for the future, but not at the expense of greenbelt. I thought greenbelt was protected, otherwise what's the point in having rules and regulations to say it should be protected? I have enjoyed growing up where there are some green spaces; this area will be ruined if it's left to become part of the city sprawl.

I understand there are many brownfield sites which are not even in the mix. Why? These should be the building plots offered to any developers. These developers seem like they want the cream of the cream, if Leeds Council will override rules and regulations that have lasted years is there corruption going on here? How is building on greenbelt justified? Answer: its not.

The council should be planning for our future properly, more schools, dentists and doctors first. There is a crisis going on in other areas (I have just waited 2 years to see an orthodontist). I hope you would take this into consideration when doing proper planning. Infrastructure needs to be in place FIRST not last (or not at all). Greenbelt is precious and should remain protected.

Please send me a receipt to confirm you have received this letter and registered it as an objection.

Yours faithfully
