

PDH01951

111 Hall Park Ave  
Horsforth  
Leeds  
LS18 5LY

I am responding to the Leeds Allocation plans especially HG241 (4240) and HG243 (5009).

The traffic on Rawdon Rd and the ring rd, from Horsforth down to Rodley is already grid locked at certain times of the day, putting valuable time on travel too and from work. So to have another 1,000 plus houses is going to make it just impossible to move around with out it being a very unpleasant experience.

Also it is going to spoil our side of the beautiful Aire valley. I know that Horsforth is supposed to be the largest village in England, but this is taking it to the limit. Also it will have a big impact on schools and surgeries. you should have more consideration for the people who already live here and know how disruptive it will be.
